Protect
your home!

Precautions
always
pay off!

Don't give burglars a chance.

- Always lock all your doors and windows, even if you are only away for a short time. Use all your locks and bolts!
- Never hide your key outside.
- If you have lost your key, please let us know and we will replace the locking cylinder immediately.
- Never leave your key in the lock inside your flat or front door, especially if it has glass panelling.
- Make your flat or house appear to be occupied during extended absences.
- Do not leave your valuables lying around at home. Keep particularly important or valuable items that you rarely need in a safe deposit box at your bank or in a certified and professionally installed safe.
- Do not leave a message on your answering machine that indicates that you are on holiday.
- Ask your neighbours to empty your letterbox.
- Did you know? Private individuals can claim a grant from KfW Förderbank for implementation of security measures. Please note that this is conversion work that requires authorisation. Find out more now: [kfw.de](https://www.kfw.de)

Good to know:

What should you do if an emergency does occur?

You should: keep calm, call the police and wait for the officers. Never try to catch a burglar in the act or overpower them yourself. Intruders could panic and use violence against you. If the thief has already left, the first thing you should do is call 110. Do not touch anything until the police have examined the scene of the crime.

The following information is important when calling the police:

- Where did the incident happen?
- What happened?
- How many people are involved?
- Wait for any questions!

Security

Better security for your home!

Our security solutions.

VONOVIA

Stand 07/2026 V 5 (E)

Don't be afraid of a burglary.

We want to offer you the best protection for your home: with preventative security technology and tips on security-conscious behaviour.

You have the choice between various tested and certified security products, which are also recommended by the police.

Installation of the security technology is very straightforward and is carried out by specially trained, expert technicians. Only branded products that have been certified in accordance with the applicable DIN standards, from ABUS for example, are used for this.

The advantages to you at a glance:

- > Customised product selection/product combination
- > Personal advice on site and fast conversion work by our technical service team
- > Increase the feeling of security in your home
